

STORY ROUSES FIERY JEROME

Evelyn Nesbit Thaw's Testimony
Dubbed Tenderloin Tattle.

MAKES AN APPEAL TO COURT

Defense Fails to Get Into Evidence the Wills of Harry Thaw and Wife. Attorney Abe Hummel and Jack Barrymore, the Actor, Mentioned in the Girl's Testimony.

New York, Feb. 9.—When court adjourned until Monday, Evelyn Nesbit Thaw was still on the stand. Picking up the threads of her life's story where she dropped them the day before, the girl wife of the defendant brought the narrative down to her wedding in Pittsburgh, April 4, 1905, and their return to New York following a honeymoon trip in the west.

Mrs. Thaw's testimony served to clear away some of the doubts and inferences which remained from incomplete details. There were repetitions, too, at the suggestion of counsel, and incidents which had not been gone over in the first years of Mrs. Thaw's acquaintance with Stanford White were brought out in completion of the life story.

District Attorney Jerome, who had throughout silently listened to the young wife's statements, sent a thrill of excitement through the courtroom by jumping to his feet and vigorously protesting against "this defamation of the dead." "Is there no limit," he exclaimed, "to the aspersions that are to be cast upon this man? Your honor well knows I can not, under the law, controvert any statement this witness might make against the memory of

ely. Mrs. Thaw told how she had been induced to answer some questions about herself and Thaw at the time, and had been told the stories about his "cruelties to girls." Stanford White had told her, she declared, that it was necessary to take drastic measures to protect her from such a person, and that Harry Thaw must be kept out of New York. She denied that she had ever signed any papers in Hummel's office, but said she remembered having signed some papers for Mr. White in his offices, the contents of which she did not know. When she became frightened about the papers and demanded to see them, she said that Mr. White took her to Hummel's office and there they burned a paper which had her name at the bottom of it. She was not allowed to see what the paper contained before it was destroyed.

This feature of Mrs. Thaw's story was made amusing at times by her interjections of the names of which Harry Thaw had applied to the lawyer and Mr. White's agitated questioning as to what she had told Hummel about him. She declared she had told the lawyer nothing. "Well," Mr. White said to me, "she went on, 'there is something wrong somewhere. He has just squeezed a thousand dollars out of me and the Lord only knows how soon he will squeeze another.' I then remembered having told Mr. Hummel, when he threatened things about Mr. Thaw, that he had better be careful for Mr. Thaw knew a lot of terrible things about Stanford White."

Pursued by White.
Mrs. Thaw declared that Stanford White, during the year which followed her experience in the room of the mirrored walls, repeatedly sought to have her visit him alone. "I told Harry," she said, "that Mr. White had begged me, had pleaded and cried and scolded and done everything he could to make me come to see him alone. I refused and he told me I was cruel, and that I was as cold as a fish, and not a human being. I told Mr. White I didn't care to trust him."

After her return from Europe and during the months she would not see Harry Thaw "because of the dreadful things Mr. White and his friends told me about him," she declared Thaw accused her of improper relations with the architect. "I told him that it was a lie and that I had not," she testified, with an emphatic show of feeling.

The defense had Mrs. Thaw tell of another incident which has been cited in her life—her acquaintance with "Jack" Barrymore, the actor. Mr. Barrymore was in the courtroom one day during the early part of the trial, at the instance of the district attorney, it was said. Mr. Delmas asked Mrs. Thaw to tell what she had told Mr. Thaw of her acquaintance with the actor. She said she had first met Barrymore at a party given by Stanford White, the year following her introduction to the architect. "I thought him very nice," she frankly said, "and one day at Mr. White's studio he said, 'Evelyn, will you marry me?' I said, 'I don't know.' He asked me a second time; again I said, 'I don't know,' and everybody laughed. Mr. White told me I would be very foolish to marry Mr. Barrymore, and my mother said so, too, and we all quarreled, and the upshot of the whole thing was that Mr. White said I ought to be sent away to school, and I was, to New Jersey."

After leading the witness to tell, in chronological order, of the incidents of her wedding with Thaw in Pittsburgh, Mr. Delmas asked if she had seen Stanford White after her return to New York from the honeymoon trip. "I passed Stanford White one day on Fifth avenue. I was in a cab and he saw me, and I heard him say, 'Evelyn, just like that,' and Mrs. Thaw raised her voice as if to call some one. "I went back to our hotel and told Harry, and he said, 'The dirty blackguard. He had no right to speak to you.' The next time I saw him I was driving to Dr. Delevan's office to have my throat treated. Stanford White was also in a cab. He just stared at me this time and stroked his mustache. I turned into Thirty-third street, off Fifth avenue, and as I alighted at the doctor's door I saw Stanford White coming. I rang the bell and the maid came to the door, and then I got so nervous and flustered I told her I would come back again, and I ran down the steps, got into the cab and drove to the hotel, where I told Harry what had happened. He got very excited and bit his nails."

These were the only two instances, Mrs. Thaw said, that she told her husband that Stanford White "had approached or attempted to speak to her."

Racing Commission Grants Licenses.
Lexington, Ky., Feb. 9.—The Kentucky racing commission, in session here, granted a license to the New Louisville Jockey club, to Douglas park of Louisville, to the racing association at Lexington and to the Latonia racing association. The meeting then adjourned until Feb. 13, when representatives of each track were invited to be present, and dates will be allowed for the various meetings. The following resolution was unanimously adopted: "Resolved, that it is the sense of the commission that there was too much racing in Kentucky during 1906, and for the best interest of racing, dates should be reduced along certain lines."

The session began with a continuance of the reading of the letters from Larry Thaw to Mr. Longfellow, written after Evelyn Nesbit's revelations to her suitor in Paris. There were others, too, which Thaw had sent to the attorney to deliver to Miss Nesbit, who at the time would not see him.

Mrs. Thaw followed these with a relation of her experiences with Stanford White and Abraham Hummel concerning the alleged affidavit which she made charging Harry Thaw with having taken her from her mother against her will, and with gross cru-

MR. JEROME, AS CROSS-EXAMINER, HURLING HIS BOMBS AT DR. C. J. WILEY.

DIST. ATTY. JEROME CROSS-EXAMINING A WITNESS

Appearing as an alienist, Dr. C. J. Wiley, a physician, of Pittsburg, was mercilessly galled by the District Attorney, who scored point after point against the man who it was sought to show was irresponsible when he shot and killed Stanford White.

NEGRO SERGEANTS GIVE TESTIMONY

Before the Investigating Committee Denying All Knowledge of the Brownsville Shooting.

Washington, Feb. 9.—Walker McCurdy, formerly quartermaster sergeant of Company B of the battalion of negro soldiers discharged for the alleged "shooting up" of Brownsville, Tex., who had charge of the ammunition, and former Sergeant Jackson of the same company, who had charge of the quarters and the keys to the gun racks on the night of the affray, were witnesses before the senate committee on military affairs. Both men gave clear accounts of their duties on that night, and the sharpest kind of cross-examination failed to trap them. Senators Warner and Foster conducted the cross-examination, McCurdy, who had served 16 years in the army, said he had done nothing to be punished for. Both witnesses said they knew nothing about the rioting.

Congressman Indicted.
Baton Rouge, La., Feb. 9.—Democratic Congressman-elect George K. Favrot was indicted by the grand jury on a charge of murder for shooting Dr. Harry Aldrich, one of the leading physicians of Baton Rouge.

E. H. HARRIMAN GETS SARCASTIC

Says if Salary is Raised He May Apply for a Job on Commerce Commission.

New York, Feb. 9.—In reply to questions about his health, E. H. Harriman, president of the Southern Pacific and Union Pacific railroads, said: "Everything has been going along smoothly, and they appear to be able to get along as well without me as with me. Why should I not stay at home altogether? But I must work, and soon perhaps I may be looking for a new job. My recommendations are many years of experience on many railroads, in many railroad fields, and if they will raise the salary a bit I may apply for a job on the interstate commerce commission. If the interstate commerce commission is to run all the roads I think they ought to want me. The railroads can not build and supply cars for the shippers to use as storehouses. There are hardly enough cars for that. Yet the man to whom a load of freight is consigned thinks he ought to be privileged to use the railroad car as a storehouse as long as he likes. Limit the time the service of a car can be used by a procrastinating shipper, and much of the present trouble will disappear."

Entire electorate of Jennings, La., 310 persons was summoned before a grand jury which is investigating Jennings election frauds in the election last fall.

IROQUOIS PLANS WERE DESTROYED

By Building Commissioner and Prosecution Growing Out of Great Fire is Embarrassed.

Chicago, Feb. 9.—The only official plans of the Iroquois theater one of the most important pieces of evidence in the forthcoming trial of Will J. Davis, at Danville, Ill., on the charge of manslaughter, growing out of the Iroquois theater disaster in which 600 lives were lost have been destroyed. They were burned by order of one Chicago building commissioner when they were found resting in the archives of the inspector's office at the city hall. The loss will embarrass the prosecution.

EXPLOSION ON TORPEDO BOAT KILLED NINE

FRENCH CRAFT WAS UNDERGOING HER FULL POWER STEAM TRIAL.

Safety Tube of Evaporating Apparatus Burst and Was Followed by Sheet of Flame.

Lorient, France, Feb. 9.—As a result of an explosion on torpedo boat No. 329 of the French navy, nine men are dead and two men are injured. The boat was launched but a short time ago, and at the time of the accident she was undergoing her full power of steam trial on the roadstead. A technical naval committee was on board. The trial was successful, but as the boat was returning to her anchorage a safety tube forming part of the evaporating apparatus burst, and a sheet of flames was forced into the stoke hole, where were the engineer, a quartermaster and nine stokers. The engineer and eight stokers were burned to death, being practically reduced to cinders.

Churchmen's Fears Groundless.
Norfolk, Va., Feb. 9.—The fears expressed by a number of Episcopal bishops that the proposed naval and military features of the James'own exposition are being given too much prominence, are not well founded, according to an official statement issued by the exposition authorities in reply to the protest of the churchmen. This statement says that while the military and naval demonstrations, which are under the control and management of the president of the United States and his cabinet, who compose the territorial commission, will be prominent, those of a religious, educational and historical character also are being given much prominence.

TAFT EXPLAINS TO COMMITTEE

Why an Appropriation of \$25,000,000 Was Asked by the Isthmian Canal Commission.

Washington, Feb. 9.—Secretary Taft appeared before the house committee on appropriations to explain the appropriation of \$25,000,000 which the isthmian canal commission has asked to have included in the civil sundry appropriation bill. The appropriation is desired chiefly for the completion of equipment, and as the government purposes furnishing the equipment to any contractor, it was explained by the canal officials that the allowances for this purpose should be liberal.

Canal Quiz.

Washington, Feb. 9.—Secretary Taft will appear before the house committee on interstate and foreign commerce Monday to discuss the Panama canal. It is likely that Chairman Shonts of the isthmian canal commission and several other officials engaged in directing the canal work will be asked to appear before the committee and inform it on canal affairs. The committee is especially interested in the proposed consolidation of the Panama railway with the canal, and will investigate the railway's organization.

SAN FRANCISCANS AT WASHINGTON

To Discuss the Japanese School Question With President Roosevelt. Given a Reception.

Washington, Feb. 9.—Mayor Schmitz and the school board of San Francisco, who were summoned here to discuss the Japanese school question with President Roosevelt, arrived in Washington. The delegation will be received by the president this afternoon. When asked as to how the Japanese children could now be admitted to the white schools if the delegation agrees to make the concession which the president will ask, Mayor Schmitz replied: "We would abolish the oriental schools, and then under our law the Japanese would be entitled to admission to the white schools."

Injured in Collision.
Jefferson City, Mo., Feb. 9.—Five persons were slightly injured in a head-on collision between a passenger and a freight train on the river route branch of the Missouri Pacific, three miles from here. Both engines were wrecked and the baggage car was torn apart.

A thousand bricks closely packed together occupy 66 cubic feet.

INFERNAL MACHINE KILLS MAGISTRATE

It Was Sent to Him by Express, Presumably as an Instrument of Vengeance.

Paterson, N. J., Feb. 9.—Justice of the Peace Robert Cortese was killed in his office by the explosion of an infernal machine sent him by express. The office was wrecked and the detonation could be heard for blocks. The judge had actively aided the police in the capture of Italian lawbreakers recently. Justice Cortese was 48 years old, and of Italian descent. The infernal machine came from Newark. It had been prepaid and the justice's boy signed the receipt. Judge Cortese removed the outside wrapper, inside was another wrapper of paper made fast with a strap, such as boys use to put around schoolbooks. The justice pulled the end of the strap so as to loosen it. The moment he did so there was an explosion. A hole six feet square was blown into the floor, and the desk was hurled into the cellar. The boy was driven into a corner and bruised and burned. Judge Cortese was terribly injured, and died soon afterward.

IN PARIS

Women Enter Complaints Against Harry Thaw.

Paris, Feb. 9.—The newspapers of Paris are devoting much space to the Thaw trial in New York, and as a result a number of persons are anxious to testify to Thaw's alleged escapades in Paris, which they declare can only be explained on the ground that he was insane. A woman from whom Thaw rented an apartment in this city has visited Consul General Mason and recounted numerous episodes of Thaw's stay. Another woman, who says she is an American, has informed the newspapers that she figured in the "bathhouse incident," to which reference was made in Evelyn Nesbit Thaw's testimony. This woman makes further allegations of maltreatment at the hands of Thaw, and declares that he gave her \$2,000 to compensate her for the injuries she sustained.

Gans-Lewis Match Off.

Philadelphia, Feb. 9.—Announcement was made here by Joe Gans that his match with Harry Lewis has been declared off. Gans says that Lewis was not satisfied with the division of the purse, which was arranged on the basis of 75 and 25 per cent; when the preliminary agreement was signed. He says Lewis now wants the purse divided on a basis of 60 and 40 per cent.

In Collision With Freight.

Ossining, N. Y., Feb. 9.—The engineer and fireman of the Adirondack and Montreal express of the New York Central railroad were killed and several passengers were slightly injured, when the express crashed into the rear of a freight train, two miles south of this place. Two of the injured passengers were brought to a hospital here, but later were able to leave.

OLD MEXICO MAY STEP IN

Mediation Wanted in the Honduran-Nicaraguan Dispute.

CLASH OF ARMS IS FEARED

Uncle Sam's Warships to Patrol Central American Waters and Protect Any American Property That May Be Endangered—War Believed Inevitable.

Washington, Feb. 9.—Acting on the request of the state department that a couple of American naval vessels be kept in Central American waters, the navy department has dispatched the gunboat Marietta to Greytown, in addition to the cruiser Chicago, which has been sent down the west coast to Acapulco, Honduras, so that within a day or two there will be an American warship on each side of the scene of the threatened trouble. It is stated that the purpose of sending these ships to Central America is similar to that which inspired the order to the Marblehead last year, namely, to have a ship at the disposal of the American ministers if they should find it necessary to travel up and down the coast, as communication by regular channels is limited. Also, they will of course protect any American property that may be endangered. It was said at the state department that correspondence had been exchanged between the department and the Mexican government. The Washington government regards itself as bound under the treaty of San Jose and the Marblehead pact to offer good offices to prevent warfare between the Central American republics, and as Mexico is under similar obligations, the two are trying to arrange a program whereby Mexico will act for both countries.

Consul William S. Alger at Tegucigalpa, Honduras, communicated with American Minister Combs in Guatemala City (he being also accredited to Honduras), that the opinion at Tegucigalpa was that war between Honduras and Nicaragua was almost inevitable. The officials here, however, do not take any such pessimistic view, and believe that the combined efforts of Mexico and America will, without offending the pride of Central American republics, result in convincing them that their differences can be settled without recourse to arms.

COSHOCKTON AFTER JUDGE LINDSEY

Efforts Being Made to Have Noted Lecturer Appear There on February 16.

Coshockton, Feb. 9.—The Woman's club of this city is in communication with the Tatchell Lecture Bureau of Mansfield, O., which controls the bookings of Judge Ben Lindsey of Denver, the father of the juvenile court system, who is to visit Ohio next week. He is to deliver an address in Newark on the evening of February 17, and the club, in behalf of all the organizations of the city, is trying to secure him for a Coshockton lecture on the following night.

Should Judge Lindsey be secured, the use of the M. E. church has been secured for February 16 or February 17.

If Judge Lindsey comes it will be under the auspices of all organizations of the city, the women's clubs of Coshockton and Roseton, the Wranglers club, the Suto club, the W. C. T. U. and others. The Coshockton circle has already taken the matter up and has decided to go to Newark in case the judge can not be secured for a Coshockton date.

Grazing Proposition.

Washington, Feb. 9.—The senate committee on agriculture is preparing to consider a proposition looking to the leasing of public lands for grazing purposes. A large delegation of cattlemen is here to support the measure. The effort will be to have a provision covering the non-incorporated in the agricultural appropriation bill as an amendment authorizing the president to establish grazing privileges on the reserved and unappropriated public lands. The question will be made the subject of a hearing Monday. The proposition will be opposed on the ground that if it becomes a law, it will give the big cattlemen a monopoly of the range to the exclusion of small holders.

CLEARING HIS DESK

Ankeney Getting His Office in Shape For Successor.

CHANGE TO TAKE PLACE FEB. 18

Quite a Number of Prosecutions Will Be Left Over, Among Them a Number of "Oleo" Cases at Cleveland. Governor Will Take No Immediate Action On Athens Hospital Affair.

Columbus, O., Feb. 9.—As he is nearing the close of his second term in the office of food and dairy commissioner, Horace M. Ankeney, gave out an interview in which he anticipates the tribulations in store for his successor. Renick W. Dunlap, at the hands of manufacturers and dealers who show an inclination to violate the pure food laws. Mr. Dunlap will fall heir, officially, to a number of oleomargarine

HORACE M. ANKENEY.
The Retiring Food and Dairy Commissioner.

cases pending in Cleveland, which will be one source of trouble, as the defendants are clamoring for a new examination and test, for which they are willing to defray the expenses. Mr. Ankeney is trying to clean up all the work of his department, so as to give a clean bill to his successor when the change takes place, Feb. 18, but some litigations will continue over, among the 67 "oleo" cases at Cleveland.

Until the courts clear up the facts as to the death of William J. Barnes at the Athens hospital for insane no steps are likely to be taken by the state authorities. On this subject Governor Harris said: "The coroner and prosecuting attorney of Athens county appear to have taken the matter in hand, and I have no doubt that the investigation which will be conducted by them will be thorough and complete. If the investigation discloses that the hospital officials have in any way been derelict in their duty, or in any way contributed to the death of the patient, I will take official cognizance of it and act accordingly, but until then I shall do nothing, further than to watch the developments in the case from time to time."

The question of what is to be done with Wilbur Reynolds, 7 years old, a Logan county boy, whom all the state and county institutions have rejected, will be presented to the courts. The boy is blind, deaf, dumb and an imbecile. Both the blind and the deaf and dumb institution rejected him, after trial, and Dr. Rorick of the state imbecile asylum declared that he would not admit him. Last year his case first came into special notice when he was for a short time a pupil at the institute for the blind, but the authorities there protested on the ground that he was more properly an imbecile and therefore ought to be cared for by another institution. An attendant then took him back to his home, but later he was placed in the deaf and dumb institution. Officials of that institution took the same view of the case as the officials of the blind institute, and rejected him after a short retention. Once more he was returned to his home in Logan county and nothing further was heard of him until steps were taken at Bellefontaine to have him cared for at the state institution for feeble-minded.

What will come of the proposition to terminate the service of John W. Johnson as state printer May 31, anniversary of the creation of the office, remains to be seen. At any rate, Johnson does not intend to voluntarily surrender the office at that time. In reply to the claim that Johnson is really serving only the unexpired term of his predecessor, it is asserted by Johnson that the term of his office is not fixed by law but by the commission, the same as other appointive state offices. He claims his commission entitles him to the office until June, 1908.

One result of the talk about appointing a negro to the office of collector of the port at Cincinnati was to start a general campaign among Ohio negroes for appointment to that or some other office. It also started movements by colored men and their friends to secure the collectorships at Toledo and Cleveland. Among those who are seeking the collectorship at Cleveland is H. T. Eubanks, one of Cuyahoga county's representatives in the house in 1904, and one of the two colored members of that legislature. A dispatch says Congressman South-

ard of Toledo called on the president and talked with him about the prospective appointment of a colored man to federal office in Ohio. The president is said to have reiterated to Southard his determination to make the appointment when he shall have determined on the particular office to which it is to be made, and when the qualifications of the men seeking nomination shall have been fully measured.

Of the 88 counties in Ohio 24 failed to avail themselves of the good roads law, which allows each county a total of \$3,409.05 for road improvement purposes for the two years covered by the legislative appropriation of one year ago. They are Auglaize, Fulton, Trumbull, Wadsworth, Hardin, Knox, Holmes, Carroll, Shelby, Darke, Monroe, Noble, Morgan, Washington, Pickaway, Hocking, Vinton, Jackson, Scioto, Preble, Brown, Defiance and Champaign. The counties are therefore the sufferers, and the state the beneficiary to the amount of nearly \$100,000, as some of the applications from other counties were irregular and they will also lose out. State Highway Commissioner Huston says that the counties which do not seem to want to avail themselves of this state aid, strange to say, are those which have the poorest roads, and where there is a prejudice against the county going into the road-building business.

An interesting legal question in Ohio was solved when Judge E. E. Corn of Ironton resigned as colonel of the Seventh infantry, O. N. G., to which he was elected as successor to Carmi A. Thompson, secretary of state. Section 14 of Article 4, which provides that judicial officers shall not "hold any office of profit or trust under the authority of this state or of the United States." The object is evidently to keep the judiciary untrammeled. The proscription against holding a military office it will be seen applies only to judicial offices—not to other elective offices, so that the many other elective officers who are now holding commissions in the guard need not be alarmed. Colonel Edward Vollrath of the Eighth regiment, recently completed an unexpired term as a judge on the circuit court bench, by appointment by Governor Herrick, no question being raised as to his right to do so. The provision has until now wholly escaped observation.

The commission created to make improvements in the senate chamber met and organized by electing Senator B. F. Gayman of Franklin, president, and Senator I. E. Huffman of Butler, secretary. Senator M. E. Rathbun of Meigs and Sergeant-at-Arms Bert Bartlow of Hamilton were present. Other members are Senators T. N. Kinsman of Trumbull and J. M. Williams of Cuyahoga. They decided to put in a visitors' gallery, such as is now in the house, repair the desks of members, purchase 40 new chairs for members, 10 new desks for the press, refit the desks of the chief clerk and engrossing clerk, provide better accommodations for the bill and index clerks, construct a new postoffice and put in an electric annunciator system. The rostrum will not be arranged in amphitheater fashion.

Senator Williams of Cleveland and Freeman T. Eagleson of Cambridge, president pro tempore and speaker pro tempore of the senate and house of representatives respectively, conferred with Governor Harris relative to accommodations authorized by the last legislature for the presiding officers of the two bodies. They inspected the available rooms for offices for the lieutenant governor, or presiding officer of the senate, and the speaker of the house, and tentatively agreed on the location of the rooms.

Opponents of the present state game warden are determined to press their opposition and to insist upon a change at the first opportunity. Numberless complaints have been filed with the governor as to the acts of the various deputy game wardens, who are accused of all sorts of offenses growing out of a state of affairs described in the late report of the state warden, J. C. Porterfield, in which he stated to the governor that most of the dereliction was due to inadequate funds for the support of the commission. The deputies receive a percentage of the fines. At a special meeting of the Ohio fish and game commission no action was taken looking to the election of the new officers for the coming two years. But Porterfield's commission does not expire for some months to come and unless the commission should see fit to make a change no election will occur until that time. It is said Henry Frank of Columbus is a candidate for Porterfield's place.

Clark C. Doughty, assistant clerk of the Ohio senate, is at Washington to promote agitation among Ohio congressmen of holding the next annual reunion of the Ohio legislature at the Jamestown exposition, instead of at Cedar Point. O. Doughty is one of the concessionaires at the Jamestown exposition, having control of the tented city, known as "Camp Dixie," named in honor of the poem "Dixie," by the late Dan Emmett of Mt. Vernon, O.

The advisory committee in charge of the arrangement of an exhibit of the work of the Ohio schools at the Jamestown exposition, held a session in the office of the state school commissioner, E. A. Jones. The committee will ascertain what material is at hand, work it over and determine what shall be presented at the exposition as examples of the kind of work the schools of the state are doing.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

"THE ROSE OF ALHAMBRA" TAKES IN NEW YORK.

New York, Feb. 9.—Judging from the applause bestowed on "The Rose of the Alhambra," when it was presented for the first time in this city, at the Majestic theater by the Opera Comique company, it pleased the metropolitan audience as well as those of other cities where it has

MISS AGNES CAIN BROWN

been given during the last year or so. While the comic opera has been seen in many of the big theaters of the country during that time and has been praised by critics, its exploiters have hesitated until now to put it up for the approval or condemnation of New Yorkers.

Miss Agnes Cain Brown, a former prima donna of the "Bostonians," plays the title role of Jaquinta, an Andalusian maid, and is given plenty of opportunity to display her ability as a singer as well as an actress. She has numerous songs and nearly all of them were encored repeatedly.

"Regular as the Sun" is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by F. D. Hall, Druggist, 25c.

Ready written essays, compositions and translations in any language are being supplied to students of Budapest by a bureau at 8 cents a page. The government has been appealed to to suppress it.

The first railroad operated in Morocco was lately opened for traffic. It is one mile and a quarter in length, and it rears on existence is the hauling of stone from a quarry to the harbor of Tangier, where German capitalists are making improvements.

Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champoege, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. I did not know that anything could stop the pain entirely, but Wine of Cardui did. I advise all women suffering with painful periods to use Cardui and be relieved."

It does this by regulating the functions and toning up all the internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.

Sold by Every Druggist in \$1.00 Bottles.

WINE OF CARDUI

Bad Debts

SLOW AND STALE ACCOUNTS TURNED INTO CASH — FRAUD DEBTORS ARRESTED — GOODS ATTACHED — WAGES GARNISHED.

When a debtor receives notice that his account has been left at this office for collection, it means unless the account is paid or arranged for, that every merchant in the city and county will be notified through our bi-weekly reports, and that his wages or other property will be pursued to the full extent of legal remedies.

BARKER PINCHED FOR TRAIN RIDING

Former Newark Polo Player Was
Dragged From His Bed By Busy
Railroad Cop.

George Barker, formerly first rush on the Newark polo team, was arrested at Coshocton Wednesday afternoon and fined \$3.50. A busy railroad detective was responsible for the arrest and the Coshocton fans are indignant. The Age says.

It appears Barker, who is a decent and respectable chap, got on the moving freight when it was blocking the track at the Pan Handle station and when he got off at once on the other side, it had moved as far as Walnut street. Later Officer Doney arrested him and took him before Squire Wimmer who fined him \$3.50.

President Fuhr of the Rink company said: "We do not ask discrimination for our boys, but only a square deal. Doney has always attended all the games and walked right in without paying a cent. We accorded him the same courtesies as the local police, although as a railroad detective he was entitled to none of them."

The Rink management issued the following statement:

"We desire to publicly protest against the lack of judgment used by the Pan Handle detective Wednesday afternoon in arresting George Barker, member of the polo team. The facts of the case are these: Barker had been in the Pan Handle passenger station and when he went out to go to his room near the corner of Fifth and Walnut, there was a freight slowly moving south. Barker stepped on the platform of the caboose, and by the time he had walked the width of the caboose and got off on the other side the train had reached Walnut street. He rode from the passenger station to Walnut street, a distance of probably one hundred feet. He had gone to his room and been in bed half an hour, resting for the night's game, when Doney came and arrested him."

COMPANY G BOYS LOST TO COLUMBUS

Columbus, Feb. 9.—Smith's team played a great deal better basket ball last night than did the five from Newark's Co. G. So the visitors lost by a score of 45 to 7. Shinn shot Newark's only field goal, while all Smith players assisted in point making. Lineup:

Smith's—45. Newark—7.
Wolf If Shinn
McGuire rg Smart
Shanahan c Crox-Crist
Purtell lg Monnett
Hunter-Sohl rg Rider
Field goals: Wolf 4; McGuire 5;
Shanahan 4; Purtell 4; Hunter 3;
Sohl, Shinn.

Foul goals: Purtell 3; Smart 5.
Officials (alternating): Hamilton and Fitzgerald. Time of halves—15 minutes.

Tonight the Co. G team will play Utica at the armory on East Main street. The game will be a close one.

FARMER IS BEST EVER

In speaking of Half-Back Farmer, playing at Coshocton, the Coshocton Times says:

Undoubtedly the best all-round player on the field was Half-Back Farmer, recently of Ft. Wayne but now of Newark. His game was sensational throughout. He made spectacular blocks, he wormed the ball away from the Coshocton rushers, he passed accurately and, oh, he shot too truly for it was his straight, hard drive from the center of the field that leaped straight into the net and brought victory to his side. Through all the hard, rough playing, Farmer smiled and kept his temper and rarely failed to gain the advantage over his opponent. Perry, erstwhile Ehrlichville talent, but now wearing the Newark uniform, played the game of his life. His work was clouded by dirty tactics, but Newark can thank him for stopping many balls that were tagged sure goals.

SPANGLES AND REAL LACES.

The short-waisted effect that the elegances in dress are so strenuously insisting upon in all of the later modes is faintly expressed in the model of the picture. Just a hint, a suggestion of the modes of the First Empire is apparent in this exquisite model, in which black tulle is liberally be-spangled and combined with real black chantilly lace.

The extreme vogue of bib and tucker effects is shown in the corsage part, in which a collar and yoke in fine pillow-made Cluny is tucked inside a tucker of tucked white chiffon, the spangled tulle brought up over this with a very narrow binding of bias velvet, which serves to mark more emphatically the contrast of both color and material. The skirt is brought up in that loose line around and above the waist that the fashions

of the First Empire demanded, only the slenderest of figures being able to withstand the extremely trying effect of the shortened waistline. It takes a slender hip as well as a slender waist to carry this mode to advantage; and an erect carriage in which the head is held high, the chest well out and the abdomen in the correct physiological position, is the necessary accompaniment of this style. The girl who 'stands so straight' that she almost falls backward would better firmly forswear adherence to the modes of this period, for they will only serve to bring into prominence the painful defects of her carriage and figure.

Soft white moire enlure and bracelet on the sleeve make for a pretty contrast; and the prevalent fashion of weighting the hem of a gown with both chiffon and velvet is followed with excellent results.

COLUMBUS DIOCESE CONTAINS OVER 75,000 CATHOLICS NOW

One of the most complete volumes of its kind issued is the Catholic Directory, which has been for some time in process of preparation and which is now in the hands of the Catholic clergy.

The book gives the name of every priest in the United States, as well as a list of all the dioceses, churches, schools, missions and in fact, every thing pertaining to the Catholic church, and it is only necessary to refer to it to find the name and address of any of the officers of the church.

Of the Columbus diocese it shows that besides the bishop it has 114 secular priests, 37 priests of religious orders, 134 parishes, 31 missions, 450 nuns, four hospitals, one cemetery, one college and three academies.

The number of pupils in the schools

of the Columbus diocese is shown to be 9786, and the convent of the Good Shepherd, with one house, has 240 inmates, while the Catholic population of the diocese is stated to be 75,373.

The Catholic hierarchy of the United States is as follows: One cardinal, 14 archbishops, 90 bishops, 10,789 secular priests and 3695 religious priests, making a total of 14,484 officials of the church in this country.

There are 11,418 churches, 88 seminaries and 97 charitable institutions of the Catholic church in the United States, and the number of pupils attending its schools in this country is 1,066,207, about one-twelfth of the entire Catholic population, which numbers 12,651,944, the whole Catholic population under the flag of this country numbering 20,986,266.

at so low a price, and it is not probable that the importation of iron will result in demoralizing prices in this country to any great extent. Practically all of the foreign iron which can be delivered before April 1 has been sold and the amount that can be landed in this country after that date does not promise to be very large. Taken as a whole, the pig iron market is easier, but with little if any evidence of weakness.

An Engineer's Experience

"A cough reduced me from 208 to 137 pounds in weight. By taking father John's Medicine I was built up to 210 1-4 pounds and my cough cured. I am now a well man and advise all who are run down or have a cough or cold to take Father John's Medicine." W. F. Rogers, chief engineer, M. B. A., Marblehead, Mass.

The greatest gas plant in the world was opened December 8 at Astoria, Long Island, by the Consolidated Gas company of New York. When completed there will be six huge tanks, having each a capacity of 15,000,000 cubic feet of gas. Each tank cost \$1,000,000.

"Everybody Should Know."

Says C. G. Hays, a prominent business man of Bluff, Mo., that Bucklen's Arnica Salve is the quickest and surest healing salve ever applied to a sore, burn or wound, or to a case of piles. "I've used it and know what I'm talking about." Guaranteed by F. D. Hall, Druggist, 25c.

BUDGET OF NEWS FROM GRANVILLE

Interesting Items Gathered by the
Advocate Correspondent in the
College Town.

Granville, Feb. 9.—The Senior class has decided to give the Washington banquet on the 22d of February. The ladies of the Baptist church will have charge of it, under the supervision of Mrs. Burton Case. The Seniors are endeavoring to make it one of the best banquets ever given. Speakers for the occasion have been chosen from among our most prominent alumni. The banquet will be held in Cleveland Hall at 6:45 sharp. As a limited number of tickets will be sold it will be necessary to procure them before the eighteenth. Tickets go on sale the seventh for faculty and seniors, and the eighth for other classes. After then they may be procured from R. W. Luse, W. H. Cox, or E. Cornell. The price will be \$1.25 per plate.

Mrs. William Mitchell had the misfortune to meet with an accident on Thursday afternoon, which resulted in very painful though not serious injuries. She had started down the steps leading to the cellar when a pet dog got between her feet and tripped her. She lost her balance and fell headlong to the bottom of the steps, but fortunately no bones were broken, although she was badly bruised and shaken up.

While skating on the ice Thursday afternoon the twelve-year-old son of Prof. Goodell fell and broke his left arm at the wrist. The injured member was promptly attended to by Dr. Thompson, after which the boy was taken to Newark to have the wrist examined under the X-rays.

The regular bi-weekly meeting of the Language Association was held in Burton Hall recitation room on Friday afternoon at 3:30 o'clock. Especially excellent papers were read by Miss Montgomery on Spanish Literature and by Mr. Roberts on 'Zaragoza' a tale of Spanish valor. The association has planned their progress for the rest of the semester. These will be printed and passed to the students in the near future.

A very neat little circular of the university has been issued by Secretary Carman, which shows several interesting views of the campus and the new improvements. A very fine bulletin of views is being prepared. It will be in the hands of the printer in the spring.

The students are all glad to hear of the re-appointment of Mr. L. A. Austin as postmaster of Granville. This is Mr. Austin's third term. Mr. Austin is an excellent citizen and takes much interest in student affairs.

Miss Effie Graham of Bucyrus, who has been visiting friends in the village during the past week, returned home on Friday.

Mr. and Mrs. Charles M. Dowby of Franklin county, have been visiting here for a few days.

One of the chief obstacles to American trade in Lower (Mexican) California is the long time taken in transportation from American trade centers.

HARCOURT WILL REOPEN.

The trustees of Kenyon college have announced that Harcourt Place seminary, Gambier, will be reopened in September, under the management of Miss Harriette Medwin, who has for the past nine years been associated with Miss Dana's school at Morris-town, N. J. A reunion of the former students of Harcourt Place is to be held in June and the school buildings will be thrown upon for the entertainment of visitors during the Kenyon commencement week.

INCREASE IN WAGES

In Prospect for Baltimore & Ohio
Railroad Employees Makes
Them Happy.

The employees of the B. & O. railroad in this city are jubilant over the announcement that they would receive an increase in wages. It has been expected for some time, but it was not until Thursday that the employees received official notice that their wages were to be raised.

J. P. Fitzgerald, trainmaster of this division of the road, has been interviewing and instructing the local employees in regard to the new book of rules. Heretofore the employees have worked twelve hours per day and taken one hour for dinner on the company's time. In the future they will work but ten hours a day and take an hour for dinner on their own time. They will go to work at 7 o'clock in the morning and work until 6 o'clock, while formerly they commenced work at 6 o'clock in the morning and worked until 6 o'clock in the evening. The engineers of the yard engines will hereafter receive 39 cents per hour for ten hours work and the remaining employees in the yard will have their wages increased in proportion. The employees will also receive more extra pay for working overtime. This is a decided increase for the local employees and as it goes into effect immediately the men will receive more in their envelopes when the March pay day arrives.

RAYMOND
PIANO
"Nearest the Human Voice"

Extraordinary Piano Value

The RAYMOND piano is extraordinary value because there is no finer piano made. We stand ready to prove, backed by 51 years' reputation, that no matter what piano you buy you will have reason to hope that it is as good as the RAYMOND. Among the 300 different makes of pianos sold in this country every year, the RAYMOND stands second to none. You can not know too much about a piano before you decide. To prove all about the RAYMOND, we will send you absolutely free, our magnificent Piano Book—24 pages of sparkling color illustrations and valuable information. Read it and you can't go wrong—You will agree that RAYMOND piano facts are not overstated; that this wonderful instrument merits your fullest confidence. We guarantee the RAYMOND for ten years but it will last a lifetime. Sit down right now and write.

THE F. L. RAYMOND CO.
CLEVELAND, OHIO.
ESTABLISHED 1856

IN the time of the Arabian Nights the chief form of amusement was telling stories. They had no books. Professional story-tellers went around and amused everybody who was able to pay. This idea of being amused is as old as the human race. "Give us something to entertain us" has been the constant cry. The answer in this day and age is the Edison Phonograph.

Every one can have his own story-teller, his own songster, his own band-master, right in his own home. The man who "kept a poet" is not in it with the man who keeps an Edison Phonograph. Hear it at the nearest dealer's.

National Phonograph Company
75 Lakeside Ave., Orange, N. J.

Dealers with established stores wanted to sell Edison Phonographs in every town not covered.
